Date of Casualty 15th December, 1939.

Particulars of Casualty This vessel is reported to have stranded on Great Natuna Island, Malay Archipelago, on the 15th December, 1939.

She is in an exposed position, Nos. 1, 2 and 4 holds are leaky and it is expected that the bottom in the double bottom tanks are holed fore and aft. Salvage is considered impossible before the end of the monsoon in March or April, and it is stated that the steamer is fully expected to become a total loss.

In reply to the special casualty notice, the London Representatives state that the Underwriters have not accepted the Notice of Abandonment as there may be a chance of salvaging and repairing the steamer when the monsoon season is ended.

29th April, 1940.

In reply to inquiry the London Representatives state that they understand a survey party has been sent from Singapore to ascertain whether this steamer can be salvaged, and they are awaiting the result of the survey.

They add they will advise this Office as soon as they receive any information.

20th August, 1940.

Lloyd's List, 3.8.40. state the vessel is cradled on rock and coral, holed in several places and that salvage is impracticable. The London Agents concur.
