Survey due Screw shaft survey due April 1914.

On the 13th October the Committee agreed to the Owner's proposal to hold the above survey at the end of that month.

In reply to further enquiry the Grimsby Surveyors now write they are informed by the Owner that it is the intention of the Government to take over a considerable number of the remaining vessels fishing. In view of this and also of the uncertainty that prevails as regards permission to fish in the North Sea in the future, he ^(the owner) does not propose stopping any more of his vessels for survey at this time.

Submitted advice be deferred for the present
