REC'D 18 NOV 1915

ANSP

The Secretary,

Lloyd's Register of Shipping,  
London.

Dear Sir,

In reply to your letter of the 20th ultimo  
respecting our report No. 4773 on the steamer "Carmen"  
we have to inform you that due to an error the diameter  
of the H.P. cylinder was given as 14" whilst it should  
be 15".

The superheater safety valve is neither in  
the "Carmen" nor in the sister vessel "Anna" fitted  
with means of lifting and turning the valve.

I am, Dear Sir,

Yours faithfully,

*A. O. J. J. J.*
