

by Chief Ship Surveyor 20. 11. 05

Received from Chief Ship Surveyor

SHIP'S NAME *Lt. Sch. "Alida Katharina"* Report *Ann.* No. *3196*

Remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/02.)

of Survey

Ernst Lüthy

It is submitted that before this case receives the consideration of the Committee it should be pointed out to the Surveyor that although this vessel requires ^{by Table 22} a kedge anchor of 1 cwt., in weight he does not state on his report that the same has been supplied. He should therefore be requested to state whether this anchor has been supplied so as to render the vessel eligible for the figure 1 for equipment. He should also be requested to state the length of the quarter deck for record in the Register Book.
