

Messrs. The Forth S.B. & E. Co's No. 26.

---

The frames for this vessel were originally proposed by the Builders to be  $9\frac{1}{2}$  x  $3\frac{1}{2}$  x .50 B.A.

It is found that those fitted in the ship are  $9\frac{1}{2}$  x  $3\frac{1}{2}$  x .46 B.A.. As frames of these dimensions satisfy the Rule requirements, it is submitted that they be approved.
