

**COPY.**

W Jordan.

12th December 1907.

Gentlemen,

M I duly received Messrs. Cooper & Gilmour's letter of the 9th instant, respecting the hand steering gear fitted to the new steamer "CRISPIN", Messrs. Sir Raylton Dixon & Co's No. 554, and with regard to this case I am directed to inform you that the Principal Outdoor Surveyor on this Establishment has also inspected the hand steering gear and reports his concurrence in your recommendation as regards the support which should be fitted to the spindle of this gear.

Mr. Williams was informed on board the vessel by the Owners' representatives that the Owners have arranged with the Builders for the support recommended to be fitted by Messrs. Sir Raylton Dixon & Co. upon the vessel's return in March next from her present intended voyage.

In these circumstances I have to request that you will be so good as to forward your first entry report on the vessel to this Office as soon as possible.

I am, Gentlemen,  
Your obedient Servant, © 2020

The Surveyors,

MIDDLESBROUGH.

Secretary.
