

last. The Builders now propose to fit floors in the double bottom at every frame, and an amended sketch of midship section

Memorandum.

GENERAL STEAM NAVIGATION COMPANY, LTD.,

STOWAGE,  
DEPTFORD, S.E.

TO  
Mr. Milne  
26/1/1907

Dear Mr. Milne, You would notice that we had a bad accident in launching the S Drake at Fovon. Stem frame, middle & propeller broken shaft driven in and thrust collars broken. Sailed on Saturday morning. Please send strong man to present you as all shafting must be tried.
