Lloyd's Register of British & Foreign Shipping,

342, Argyle Street, Glasgow.

18th April 1907.

The Secretary
 Sir,

Alcoa. S/B 184.

As it has now been decided to fit floors to every frame in way of the double bottom of this vessel, instead of to alternate frames as proposed, a new midship section is now submitted showing this and the amendments previously made by the Committee.

The original plans are enclosed for reference, the midship section may now be cancelled.

Regarding the lower anchors for this vessel, the builders are wishful to use a stockless anchor they have in stock, weighing 37.2.18 and to make up the Rule weight this

As appd. S+B		S+B	
1 Bower Stockless	35.2.0	1 Bower Stockless	37.2.18
1 " "	35.2.0	1 " "	33.0.0
1 " "	30.0.0	1 " "	30.1.10
101.0.0		101.0.0	

I understand the Owners have agreed to this altered arrangement and I beg to recommend same for the favourable consideration of the Committee.

I am Sir, Your Obedient Servant
 J. H. Munro
