

76.

D. W. Henderson Esq. Is No 445 (Ashburton)

It is submitted the Glasgow Surveyors should be informed that the proposal to omit cement from the inside strakes of shell plating within the double bottom of ~~the~~ Mss: D W. Henderson & Co S.S No 445 - "Ashburton". will be approved provided they be coated with cement wash and provided the outside strakes ^{and Red plate} be cemented up flush with the inside strakes of shell plating. The Surveyors should inform the builders that the owners have been conferred with and they concur in this arrangement. It will of course be necessary for the condition of the cementing to be periodically examined and reported upon by the Society's Surveyors, as required in previous similar cases, and the owners have been so informed.
