J. MACVEY

SHIP & ENGINEER SURVEYOR

PORT SAID,

LLOYD'S REGISTER  
 RECEIVED  
 27 NOV 1936  
 Assd. 7/12  
 LONDON

19th November, 1936

T/S " ZAMZAM "

Dear Sir,

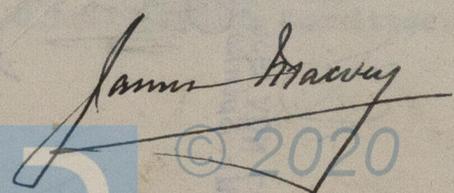

I expect to start on this vessel's boilers soon, and they (the Owners) intend to drydock the vessel about the 20th December, when the tail shafts will be attended to.

I understand from the Chief Engineer that they are not going to stiffen up the bulkheads and tunnels this year, as they find that carrying water to the top of the tunnels is sufficient for the numbers carried at present.

Will I be in order giving a certificate similar to what was given last year in this case.

I am, Dear Sir

Yours faithfully

THE SECRETARY
