# Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

Number 5 hold is being converted into a tank for the carriage of fresh water, and on the 15th instant a certificate was received from the Port Said Surveyor showing the scantlings of the tunnel and athwartship bulkheads. The stiffening was fitted

30th January, 1936.

Dear Sir,

M. I have to acknowledge the receipt of your letter of the 21st instant in further reference to the alterations to be carried out to the T.S.S. "ZAMZAM", and with regard thereto I have to inform you that the stiffening arranged by you to be fitted to convert No.5 hold into a fresh water tank is considered satisfactory.

It is noted that this stiffening will be fitted after the present pilgrim season, and that in the meantime you have granted a certificate for this compartment to be used for the carriage of fresh water up to the top of the tunnels only.

I am, Dear Sir,

Yours faithfully,

Secretary.

J. Macvey, Esq.,

PORT SAID.
