PORT OF

24th September 1940.

Dear Sirs,

I am directed to acquaint you that the Committee have had before them a report from the Society's Surveyors at this port, on the machinery of the motorship "INWISFALLEN", from which it appears that, in view of the condition of the port No.1 cylinder cover, it is recommended that it should be renewed or again submitted for examination before the end of March 1941; and the Committee have accordingly continued the vessel's classification in the Register Book subject to this being done.

I am, Dear Sirs,

Yours faithfully,

Secretary to the
Liverpool Committee.
