

s.s. "JAMES MC GEE".

The New York Office has forwarded a verification form giving the freeboards which have been assigned by the American Bureau in accordance with the U.S. Freeboard Regulations.

This vessel is classed 100A1. Shelter deck with freeboard, Carrying petroleum in bulk, and the freeboards assigned were the minimum permitted by the B.T. Regulations.

From estimates made in this Office it would appear that the freeboards now assigned are the minimum permitted by the U.S. Regulations.

It is therefore submitted they be accepted as complying with the conditions of classification in the Society's Register Book.

The records in the Register Book should be amended as given on the attached form, and the Board of Trade should be advised.
