Dear Sir,

With reference to your letters of the 17th May and 8th June regarding the particulars required by Notice 1803 in respect of Davey, Paxman & Co's Engine No.4812, I have to state that I have made repeated requests to be furnished with the necessary particulars but without success.

The Makers state they have not the staff necessary to deal with such questions and they intend to submit proposal for approval covering the torsional vibration characteristics of their "RQ" and "RW" types of heavy oil engines driving auxiliary machinery.

I am, Dear Sir,  
Yours faithfully,

*J. J. J. J.*

The Secretary,  
WOKINGHAM.
