Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.3.

8th August, 1936.

Dear Sirs,

Motor Coaster "JOLLY GIRLS".  
-----

E.

I am in receipt of your letter of the 7th instant respecting the above ship, and note that the air receivers are first charged by the auxiliary compressor which is driven by the 12 B.H.P. single cylinder Aster oil engine, and it is concluded that this engine can be started by hand but I shall be glad if you will confirm this.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

MIDDLESBROUGH.
