

COPY.

9th March, 1920.

Dear Mr. Ward,

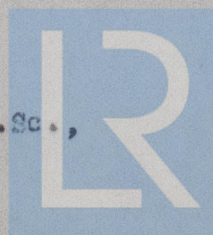

Reverting to my letter of the 5th instant regarding the S.S. "ST. TROPEZ" ex "WAR HALTON", I have received this morning from the Board of Trade the British Corporation freeboard computation, and I enclose a copy of the measurements reported, which please pass on to the Surveyors at Marseilles to check and make out their own report. I prefer them to use the form 11b with the English measurements, as it saves a lot of labour, and at the end of the computation we turn the figures into millimetres for assignment.

Unfortunately there <sup>are</sup> ~~are~~ no particulars on the British Corporation form which I have received regarding the hatchways, so it will be necessary for the Surveyors to obtain these particulars to insert on their report.

With kind regards,

Yours faithfully,

R. J. L. Ward, Esq., B.Sc.,  
4, Rue Aubert,  
PARIS.
