Lloyd's Register of British & Foreign Shipping,

71, Fenchurch Street, E.C.

13th June, 1913.

Gentlemen,

I have to acquaint you that it appears from a First Entry Report received from the Society's Surveyors at Rotterdam that the S.S. No. 104 built by Messrs. Van Vliet & Co. has proceed to your port where the machinery is to be fitted.

To complete the survey on the hull the engine and boiler casings require to be riveted and the pillaring in the engine and boiler space to be completed.

I shall be glad if you will be so good as to give the case the necessary attention and on completion of the work forward a report on Form 8 for the information of the Committee with a view to the classification of the vessel.

I am, Gentlemen,

Your obedient servant,

Assistant to the Secretary.

The Surveyors,

H U L L.
