Lloyd's Register of Shipping.

Port

NEW YORK

MAY 24th, 1932.

This is to Certify that

WM. BOYLAN

the undersigned Surveyor to this Society did at the request of the Standard-Vacuum Transportation Co., survey the Steel S. S. "LINBRE" 7057 tons gross register of New York, Official Number 221073, for

U. S. ANNUAL LOAD LINE INSPECTION

in accordance with the Department of Commerce, Bureau of Navigation, Load Line Regulations, and as set forth in paragraph thirteen (13) of same.

On the 20th day of May, 1932, while the vessel was lying in dry dock at the Morse Dry Dock, Brooklyn, N.Y., the undersigned upon examination found:-

that the (a) protection of openings, (b) guard rails, (c) freeing ports, (d) means of access to crew's quarters have been maintained in an effective condition, and that, in my opinion, there have been no alterations made to the hull or superstructures which would affect the calculations determining the position of the load lines.

W. French

Chief Surveyor to Lloyd's Register of Shipping

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that :-

"While the Committee use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Committee nor the Society are under any circumstances whatever to be held responsible for inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default, or negligence of the Surveyors, or other Officers or Agents of the Society."
