

Official papers

Memo.

"FAMAGUSTA"

Interviewed Sir Douglas Garrett, of Messrs. Parker & Garrett, on the 16th April, 1948, and explained the case and left with him for consideration the following papers:-

Society's Official Reports, First Entry and London Report No. 114901 together with papers attached thereto.

Freeboard reports and attached papers.

Copy of memo of the case dated 14.4.48, together with copy of notes *of* questions now being investigated in this Office.

Sir Douglas stated he considered the Society would require to be legally represented at the forthcoming enquiry and that it would probably be necessary to take statements from the Surveyors concerned, when formal notice had been received from the Ministry. Meanwhile he would study the case and advise.
