## Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

ENCLOSURE.

6th April, 1927.

Dear Sirs,

I have to acquaint you that the S.S. "KERVEGAN"  
has been under survey at Nantes for freeboard assignment,  
but that the sheers reported by the Society's Surveyors  
appear to be small.

In the circumstances I send herewith a report form  
11b showing the sheers as reported by them, and I shall be  
glad if you will be so good as to verify the sheers at  $\frac{1}{2}$  length  
at each end, and at the same time check the lengths of the  
erections, paying particular attention to any overhang at  
the ends.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

CARDIFF.
