+ Allowance for Fresh Water for all Freeboards			<u>7$\frac{1}{2}$"</u>

All measurements are to the upper edges of the respective horizontal lines

This is to Certify that this ship has been surveyed and the freeboards and load lines shown above have been found to be correctly marked upon the vessel in manner and location as provided by the Load Line Regulations of the Department of Commerce.

This certificate remains in force until January 30th, 1935
Issued at New York on the 5th day of February, 1931.

NOTE: In accordance with the Regulations of the Department of Commerce the disc and lines must be permanently marked by centre punch marks or cutting, and the particulars given in this certificate are to be entered in the official log. If, and so soon as, any changes are made in the structural condition of deck erections, this certificate will be cancelled and must be delivered to Lloyd's Register of Shipping for that purpose, and the owners must then apply for a new certificate.

†Where seagoing steamers navigate a river or inland water deeper loading is permitted corresponding to the weight of fuel, etc., required for the consumption between the point of departure and the open sea.

At the expiration of the certificate, renewal should be obtained in accordance with the Regulations, and, if, upon examination, the vessel is found to be in a satisfactory condition, the certificate will be extended and so endorsed on the reverse side.
