**SIR HARVEY ADAMSON.** — London, Apr. 25.—The managing agents of the owners of the steamer Sir Harvey Adamson have received the following cable from Calcutta, dated Apr. 24: With reference to Press reports concerning the Sir Harvey Adamson we have received the following signal through the embarkation authorities, dated Apr. 23: "Aircraft search on Apr. 22 revealed no trace, extended aircraft search and search by surface vessels proceeds." This is the first and only advice received by us of this casualty. **SIR HARVEY ADAMSON.** — Singapore, Apr. 29.—The search for the British steamer Sir Harvey Adamson has been abandoned. A Navy spokesman stated to-day that there was every possibility that the ship had struck a loose mine as there were many old minefields off the coast and at the approaches to the rivers which minesweepers of the East Indian Fleet had been endeavouring to sweep for months, but added that the last message from the ship said she was unable to reach port owing to bad weather so it was possible that a gale had caused her to founder.—Reuter. (See issue of Apr. 29.)

At 6 30 p.m., B.S.T., on the same day, a wireless message was received by the Meteorological Office, Rangoon, giving the vessel's position as lat. 13 30 N., long. 97 36 E., routine weather report being to the effect that there were squally winds from the south-east at 23 to 27 miles per hour.
