

Wexford 16th Dec 1882

Chas Graham Esq
Secretary -

Sir on the 10th your survey
was given as the Certificate
of Bluffification of our Bay Fifth
in 4 years and also informed
us that the woman she got her
finger time was that she had
been in her Caking and Spinning
waterways - as she had been ~~been~~
built by Mr Olive of St John to
last 7 years. we considered there
must be some mistake - and note

to her Master (Surrey Cable) to
ascertain the wind in these parts
we have got from him the Certificate
we enclose - we have seen your
survey here, and he has found
that his notes do not state that
any of the ceiling is brick - but
they have the Waterways I mean
The Furth is now taking in here
in the Gate Dock Cardiff and if
the Certificate we enclose - is not
sufficient Proof that the Waterways
are yellow Pine - we hope you will
direct your survey at Newport
to examine them. If he went to
Cardiff on Monday he would see
the Furth there as the ^{not} will sail

before Tuesday or Wednesday - he
will pay the expenses Mr Haynes
may incur - and his fee for survey
of the Waterways he sent - William Price
your Obedt Servt
