

1869
Newford 1st June

O
Sir

The Iron Schooner built
in our Dock Yard and
reported by you in July
1868 Hull Mast & Spars
but not fitted out or launched
has since that date remained
on the Blocks in our premises.

It is now our intention
to launch her fully fitted
for sea next spring tides.

She has not we believe
been noticed in any of

the circulated reports
Would you please enquire
of the Secretary at Lloyd's
Registered. Will this vessel
Class date from the day of
launching and outfit?
And not on that of former
report?

Yr. Remains
Yours Obedient
Geo Dock Yard & Co
