

COPY.

26th January, 1934.

ISTANBUL

3557. As recommended.

3563. "TAIDE". The contents of your report have been noted.

3561. "MAZORCA". Deferred for repairs. The contents of this report have been carefully noted.

From Lloyd's List it appears that as the result of the surveys held by the Underwriters' Surveyor and yourself the vessel has been declared a constructive total loss, the estimates for repairs having exceeded the insured value of the vessel. You should advise me promptly of any further developments which may arise in connexion with this case.
